OROL LEDDEN

WE ARE plant-growers and not plant-dealers. Every plant we send out is grown by us on our Sewell Farms. Only first-class plants raised from carefully selected seed will be sent out.

We ship annually thousands of mail orders to all states east of the Mississippi River. The bulk of our orders go into New Jersey, Pennsylvania, New York, Delaware, Maryland, Ohio, Virginia, and the New England States. Our careful packing, insuring good condition of plants, gives our customers the best satisfaction.

We have five large greenhouses heated by hot-water heat for early plants. These houses are devoted to growing pepper, eggplant, and tomato plants. Also, we have 1200 sash for coldframe beds for spotting or raising plants. The greater part of our plants are hardy, field-grown, planted and farmed by machine in 12-inch rows. These field-grown plants are strong and healthy, raised from the highest grade seed, and will give the best satisfaction.

All plants shipped will be carefully packed in moss, in cartons, boxes, or crates and sent by Parcel Post or Express.

We are located in our Stucco Store, on concrete road, opposite Sewell station, 12 miles below Camden on the Pennsylvania-Reading Seashore Lines to Atlantic City.

We welcome customers and friends at our farms and shall be glad to show our plants and seeds. To come by automobile—Camden or Gloucester to Woodbury to Mantua, left 2 miles to Sewell. From South Jersey points, come by way of Glassboro, take Woodbury road, and turn to left at Sewell. Roads are concrete.

Terms

Cash must accompany all orders; otherwise, goods will be shipped C. O. D.: a 25 per cent deposit must accompany all C. O. D. orders of plants. Send Check, Postal Money Order, Express Money Order or Registered Letter. You are protected by our safe delivery guarantee.

We guarantee all plants to be grown on our Sewell Farms. We grow and handle plants from the best seed obtainable, and no seed that we know is of poor germination or inferior in any way is allowed to be sold.

The fact being well known that no reputable seedsman now guarantees seeds in any respect renders it unnecessary for us to say very much on this point, because it must be apparent to every intelligent person that no seedsman can afford to send out poor or worthless seeds. There could be no more certain way of destroying his business.

While we exercise the greatest care to have all seeds, plants, and bulbs pure and reliable, we give no warranty, express or implied, as to description, purity, productiveness, variety, or any other matter of any seeds, plants, or bulbs that we send out; and we will not in any way be responsible for the crop. If the purchaser does not accept the goods on these terms, they are to be returned at once and the money paid will be refunded.

All prices quoted in this Catalogue are subject to change without notice.

OROL LEDDEN & SONS

Safe Delivery Guaranteed. All plants and seeds are guaranteed to arrive in first-class condition, and if they do not, mail carrier or expressman should be notified on delivery. If damaged, request him to make notation of damage, sign, and mail to us at once, and more plants or seeds will be forwarded or money refunded.

A partial view of 27 acres of Late Cabbage Plants

Cabbage Plants *Plant May 10 to August 10*

Every year we grow large fields of Cabbage plants for kraut packers and farmers. We have shipped as many as 1,500,000 Cabbage plants in five days. Several sowings are made throughout the season in order to have plants the right age at any time during the season. We make it a point to have as healthy plants as possible and have all the leading varieties. We would advise gardeners to set out Cabbage plants two or three times—early varieties in May, second-early or late in June, late varieties in July.

Golden Acre. This is the most popular early variety. Heads are of good size, perfectly round, solid, and very uniform and compact, having few outer leaves, which permits close planting. We have a very good strain from a reliable grower.

Early Jersey Wakefield. A very early, pointed-head Cabbage, compact and erect, with few outer leaves. Stem short; heads medium-sized.

Charleston Wakefield (Large Wakefield). Similar to Jersey Wakefield except about one week later. Heads larger and not as sharply pointed.

Winnigstadt. A good early variety. Very sharp-pointed heads. Used for early planting and also for planting late in July and August.

Allhead Early. This is a great Cabbage and one of our best sellers. Head hard, slightly oval to flat in shape. One of the most used by kraut packers. We have sold millions of this variety to growers for kraut factories.

Copenhagen Market. An extra-early, good, round-heading, hard Cabbage, about one week later than Golden Acre.

Marion Market (Resistant). The heads are almost round and very solid. Early variety.

Early Summer. An early flat-head variety.

Surehead. Large, popular, flat-head, late variety.

Succession. A second-early with roundish, slightly flat, solid head. Good kraut Cabbage.

Early Flat Dutch. Similar to Late Flat Dutch but earlier and smaller.

Glory of Enkhuizen. Hard-heading, second-early, fine-grained. One of the best for kraut.

Danish Ballhead. Tall stem. A very hardy, sure-heading, heavy variety which has proved to be one of the best keepers. A desirable Cabbage for kraut or keeping.

Danish Roundhead. Short stem. Very good late variety. Heads are not quite as large as the Ballhead. Solid and also a good keeper. A good kraut variety.

Wisconsin Hollander. Late yellows-resistant strain of Danish Ballhead. A good variety for storing or kraut packers.

Late Flat Dutch. Enormous, flat head. Should be planted early in July as it requires a full season to head hard. Best late variety and also best winter keeper.

Perfection Drumhead Savoy. The crumpled-leaf variety, producing large heads. Should be planted in June, July, or August.

Wisconsin Red Hollander. Hard-heading red variety.

PRICES: Postage prepaid: 20 cts. for 25; 55 cts. per 100; $1.40 for 500; $1.85 per 1,000.
Express or Parcel Post, f.o.b. Sewell: $1.25 per 1,000; 5,000 lots or more, $1.00 per 1,000.
At our farms: 10 cts. for 25; 25 cts. per 100; 50 cts. for 500; $1.00 per 1,000.

Celery Plants *Plant June 15 to August 15*

Ledden Golden Self-blanching. Tall. The most popular and one of the best of all early varieties. For the past few years our stock has produced Celery of unexcelled quality and perfect growth. Everyone should raise this excellent variety. Stalks 26 to 28 inches tall, which blanch readily.

Supreme Golden. New early strain of Golden Self-blanching. Very uniform, strong-growing type.

Golden Self-blanching, Dwarf. Very popular because of its earliness and ease of blanching. Leaf stalks are thick, solid and sweet.

Golden Plume. A self-blanching Celery developed from Golden Self-blanching. Has been pronounced by authorities to be the best early variety. Blanches quickly and is very healthy.

Sanford Easy-blanching. This good variety comes a little later than Golden Self-blanching and requires longer banking to blanch. Vigorous in growth and a splendid keeper.

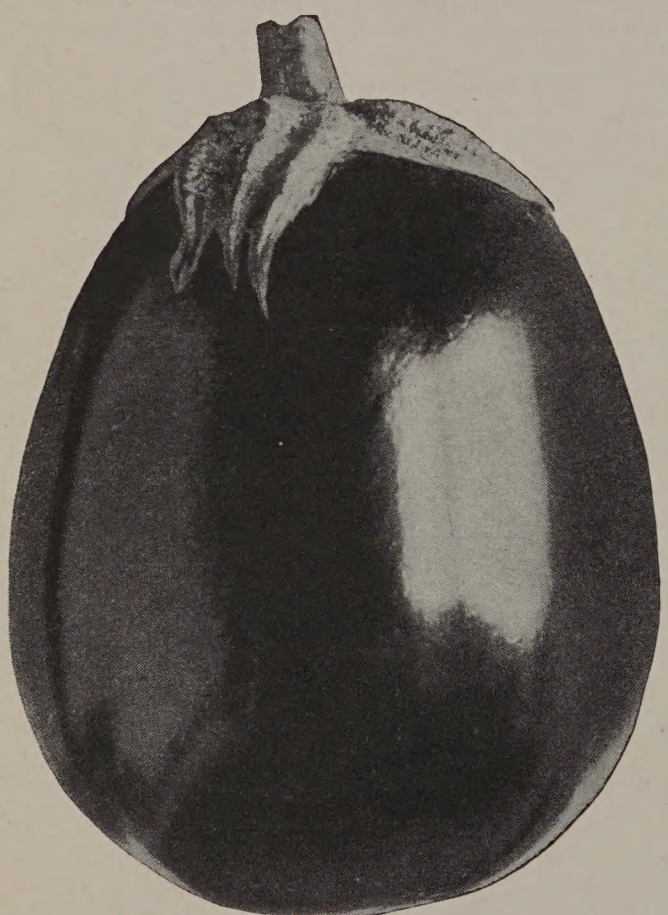
White Plume. An early Celery with beautiful white leaves in center. Blanches pure white. Liked by some better than Golden Self-blanching.

Giant Pascal. Grows large and is the leading late variety. Stalks are broad, thick, and solid. Extra good eating Celery; very brittle.

Winter King. A strong grower and one of the best keepers. Blanches white when banked.

Emperor or **Fordhook.** Plants stocky and compact; stems thick, round and of fine quality. Fine for late fall use and winter storage.

Celeriac (Turnip-Rooted Celery), Large Smooth Prague. Used for the large turnip-rooted bulb. Grown the same as Celery.



Black Beauty Eggplant

Pepper Plants

Plant May 10 to July 20

World Beater. This great Sweet Pepper wins praise wherever it is grown. The large plants are loaded with enormous Peppers excellent for slicing or filling.

We grew 18 Peppers that filled a basket and took first prize at Granger's Fair at Alcyon Park at Pitman, N. J.

California Wonder. A well-liked variety. Meat very thick and dark green, turning crimson. The heaviest and thickest Pepper on the market today. Highly recommended.

Ruby King. An extra-good variety, earlier than World Beater. Heavy cropper.

Hot Bull Nose. An extra-good, hot, blunt variety. Heavy yielder.

Tomato or **Squash Pepper.** A round, sweet variety.

Long Red Cayenne. A red-hot variety used for pickling, drying, etc.

PULLED SASH OR FIELD-GROWN

Tomato Plants *Plant May 1 to July 30*

Tomato plants are our greatest specialty, and we believe we are the largest growers of Tomato plants in the United States. Canneries and large growers in New York, Pennsylvania, New Jersey, Delaware, Maryland, Virginia, West Virginia, Ohio, Indiana, and Illinois obtain their plants from us every year. We have had single orders for a million plants and many unsolicited testimonials say, "Your plants were good and the Tomatoes produced from them were the best received at the factory."

Our plants are grown from seed treated with Semesan, and we give quick service when plants are right size.

Certified Marglobe. The leading variety and used as the main crop by almost all large growers. Seventy per cent of our sales on Tomato seed is the Marglobe. A second-early, solid, very meaty, thick red Tomato, that ripens well up to the stem, making it very desirable for canning or table use. Heavy yielder. All of our Marglobe plants are grown from New Jersey State Certified Seed.

Rutgers. This introduction by Lyman G. Schermerhorn, of the New Jersey Agricultural Experiment Station, is a leading development in Tomatoes. It compares in shape and size with the Marglobe but is slightly larger and a heavier yielder. The fruit ripens a deep red up to the stem, and runs very uniform in size. An excellent variety for home use, marketing, or canning. Canners who put up Tomato juice speak very highly of the variety, as it produces a juice which is deep red in color.

Pritchard (Scarlet Topper). This variety was introduced by Dr. Frederick J. Pritchard, of the U. S. Department of Agriculture. A heavy-yielding variety, about 10 days earlier than Marglobe. Vines are not as rugged as Marglobe and do not hold up throughout the season.

Greater Baltimore. An extra-good main-crop red Tomato.

New Stone. An extra-good heavy Tomato for canning or slicing.

Bonny Best. Second-early variety that is liked by canners that grind their Tomatoes for soups or catsups, as the fruits ripen to the stem and also have a beautiful red color when ground. Tomatoes grow in clusters.

Ponderosa. A large purple Tomato, used in gardens.

Acme. Early purple Tomato.

Yellow Plum. Used for preserving.

TOMATO PLANTS FOR TRANSPLANTING INTO COLDFRAMES, ready March 20 to April 20—Earliana, Marglobe, Rutgers, and Pritchard (Scarlet Topper), $2.50 per 1,000 f.o.b. Sewell.

FIELD-GROWN TOMATO PLANTS always give the best satisfaction. Ready May 25 to July 15. Parcel Post or Express prepaid: 20 cts. for 25; 60 cts. per 100; $1.50 for 500; $2.00 per 1,000. Express or Parcel Post, f.o.b. Sewell: 25 cts. per 100; $1.25 per 1,000.

TRANSPLANTED (with block of dirt) TOMATO PLANTS, ready about May 10—Earliana, Rutgers and Marglobe, at our greenhouses, 50 cts. per doz.; $3.00 per 100; $25.00 per 1,000. These do not carry well by Parcel Post or Express, but can be carried in baskets by auto or truck.

Pulling Tomato Plants

Asparagus Growing for Roots

Asparagus Roots *Plant March to April*

One or two years are saved by planting roots. A bed 12 x 40 feet requires 100 roots, which would supply a family; 5,000 roots to an acre in 4-foot rows.

Mary Washington. The best and leading variety. Extra-strong 2-yr. roots, postage prepaid: 75 cts. for 50; $1.25 per 100; $8.00 per 1,000.

Special prices on larger quantities.

Rhubarb Roots *Plant March and April*

Victoria. An extra-good market sort with large, beautiful red and reddish green stalks.
Extra-large roots, postage prepaid: $1.25 per doz.; $5.50 per 100.
Express, f.o.b. Sewell: $30.00 per 1,000.
At our farms: 60 cts. per doz.; $4.00 per 100; $30.00 per 1,000.

A Parcel Post Shipment of Our Plants

A field of Green Bountiful Beans

Vegetable Seeds

We list 200 of the leading and best varieties of seeds and take greatest care to secure only the best strains. Our seeds are grown especially for us by the most reliable growers in various parts of the world, so that it may be produced in the section that is best suited for the variety. For example, our Lima Beans are grown in California; Beans, in Idaho; Cantaloupe, in Colorado; Corn, in Connecticut; Spinach, in Holland; Onion sets, in Illinois, etc. Contracts with growers are placed twelve to eighteen months before the seed is to be delivered or before the seed-grower plants the seed stock. This is done to secure only fresh and highest quality seeds for our customers.

Oral Ledden, Sr., who has devoted thirty-six years to the seed business and has been a plant-grower all his life, probably is better acquainted with the farming industry and the gardener's problems than any other man in the seed business today. We say this because he was born and reared on a large farm in Gloucester County, New Jersey; his father was a farmer and grew plants and seeds. He owns and operates two large farms and other farmland totaling about 300 acres. He has experimented with all of the varieties of vegetable seeds listed in this book and has grown them on a commercial scale. He is therefore well acquainted with their individual characteristics.

We endeavor at all times to secure the highest quality seeds obtainable and to offer these high standard seeds at minimum prices. No seed is allowed to be sold that we know is poor in germination or in any way inferior.

We prepay transportation charges on all of our seeds except quarter bushels or more of Beans, Corn, Onion Sets, and Peas at bushel rates. For prepayment of these, please add 1 cent per pound to the price. This enables our many mail-order customers to secure Ledden's Seeds at no extra cost. No charge is made for packing or package.

Half-ounce sold at ounce rate; ½ pound sold at pound rate; ¼ or ½ bushel sold at bushel rate.

Artichoke

Large Green Globe. The best variety. Treat like tomatoes, sowing the seed indoors and setting the plants 2 to 3 feet apart, in April or May. Pkg. 10 cts.; oz. 40 cts.; ¼lb. $1.25; lb. $4.00.

Asparagus *Sow in March and April*

Mary Washington. The best variety of Asparagus. It is a selected strain, earlier and more vigorous than other varieties, producing fat, delicious stalks abundantly and regularly. This is the famous rustproof variety produced after many years' effort, and is completely free from rust and other fungous diseases which harass the life of many Asparagus growers. Quality is of the highest. Oz. 10 cts.; ¼lb. 25 cts.; lb. 75 cts.; 5 lbs., 70 cts. per lb.

Fordhook Bush Lima Beans

Bush Lima Beans (California-grown)

Sow from May 1 to July 15

Fordhook. We have a reputation for handling a better grade of Fordhook Bush Limas than most seed-houses. Our Beans are all hand-sorted, extra large, good croppers, and almost free from cracked Beans. We supply a number of the largest growers, some of whom plant as many as 40 acres of Fordhook Bush Limas, and have been buying their seed supplies from us for thirty years. Especially grown for a leading grower who specializes in this variety. Requires 76 days from sowing to date of maturity. Lb. 30 cts.; 5 lbs., 25 cts. per lb.; 10 lbs., 20 cts. per lb.; bus. (60 lbs.) $9.90.

Burpee's Improved. A flat-pod Lima, which has steadily advanced in popularity for both home-growing and market use. It bears uniformly larger pods than the original Burpee's Bush Lima, which contain even thicker Beans that remain green after they become dry. The compact, bushy plants are very prolific, bearing huge pods in clusters of 5 to 7, averaging 5 inches long or more, with 6 large, flat Beans which are thin-skinned and have a delicious flavor. Matures in 75 days from sowing. Lb. 30 cts.; 5 lbs., 25 cts. per lb.; 10 lbs., 20 cts. per lb.; bus. (60 lbs.) $9.90.

Border of Cannas

Canna

We have made a specialty the past few years of growing quite a quantity of the most popular large-flowering varieties of Cannas. We offer both the bulbs and the potted plants (potted in 3½-inch pots and ready during May, June, and July) at very attractive prices.

President. Large, brilliant scarlet blooms. Glossy green leaves. This is probably the most popular variety because of its excellent habit and brilliant shining color. Height 4 feet.

Yellow King Humbert. Large, golden yellow flowers, dotted with red spots. Leaves are light green. An old timer but scarcely to be surpassed by more modern varieties which have challenged its supremacy. Height 4½ feet.

City of Portland. Beautiful pink flowers. Green foliage Height 3½ feet.

Meteor. Bright red flowers. Glossy green leaves, similar to President. A good bedding variety. About 3½ feet high.

Wyoming. Large spikes of orange flowers. Dark bronze leaves. One of the tallest varieties suitable for back rows or the center clumps of large plantings. Height 6 feet.

Golden Eagle. Golden yellow flowers. Green leaves. Makes a fine massed bed, of a brilliant shade effective in sunlight. Height 4 feet.

Gladiator. Yellow flowers, splashed with red. Light green leaves. The bizarre, oriental coloring is most attractive. Height 4 feet.

Hungaria. Large pink flowers. Green foliage. Height 3½ feet.

Apricot. Light pink with buff-yellow base. Bright green leaves. Height 3½ feet.

Eureka. Creamy white flowers. Green leaves. This is the only really good white variety known. It is the rarest and most difficult color in Cannas. Height 4 feet.

Red King Humbert. Dark red flowers. Glossy deep brown leaves. Height 4 feet.

Canary. Canary-yellow flowers. Green foliage. Height 3½ feet.

Kate Gray. Deep orange flowers. Green foliage. Tall growing. Height 5 feet.
